## About CDPS Rulemaking and Stakeholder Engagement

Virtually all state government agencies issue rules or regulations of some kind. Most rules and regulations exist at the direction of the state legislature in order to regulate certain business and personal activities. Rules and regulations exist because it's easier to update them, eliminate them, or alter them administratively than it is to pass new legislation as conditions change.

**Purpose:**

This document is developed as a companion to assist in the reading and understanding changes proposed to 8 CCR 1507-59, the Catalytic Converter Identification and Theft Prevention (CCITP) Grant Program Rules. These rules are being repealed in anticipation of the automatic repeal of Section 24-33.5-230, CRS, et. al. 8 CCR 1507-59 has been updated to appear in ~~strikeout font~~ to reflect this intent.

**Accessibility Editing Note:**

The redlined rules include formatting updates and minor edits not affecting the content, interpretation, or intent to repeal 8 CCR 1507-59 that are necessary to comply with the document accessibility standards required by Section 24-34-802, CRS, and adopted under 8 CCR 1501-11. 8 CCR 1501-11 applies to the Colorado State Patrol through Section 24-34-802 (1) (c), CRS, and requires the CSP to provide information meeting accessibility requirements specified by the Web Content Accessibility Guidelines per OIT's accessibility technical standards. There is no exception for rulemaking engaged solely to repeal existing rules that will be rendered ineffective or moot by statutory expiration.

Changes to these rules to comply with the accessibility standards include changing capitalized text to mixed-case or lower-case text, removing underlined text, increasing font size, enabling hyperlinked text associated with website addresses, and adjustments to the physical paragraph structure of the document to more effectively support bookmarking for electronic reading software.

The Colorado Automobile Theft Prevention Authority (CATPA) Unit of the Colorado State Patrol (CSP) is committed to supporting effective communication and access to these rules by all members of the public. **Statement of Basis, Statutory Authority, and Purpose**

Effective July 1, 2025, and consistent with Section 24-33.5-230 (6), CRS, the Catalytic Converter Identification and Theft Prevention Grant Program will be repealed. Under Section 24-33.5-230 (2), CRS, the Colorado State Patrol adopted rules to administer this program, but it does not contain a clause to repeal rules adopted upon the expiration of the statute automatically. Consistent with best practices, the Colorado Automobile Theft Prevention Authority Unit of the Colorado State Patrol seeks to repeal the Catalytic Converter Identification and Theft Prevention (CCITP) Grant Program Rules before the Patrol's authority to manage these rules under 8 CCR 1507-59 is revoked.

Document formatting adjustments not affecting content have been made throughout the document to comply with the state accessibility standards applicable under Section 24-34-802, CRS, and adopted under 8 CCR 1501-11. 8 CCR 1501-11 applies to the Colorado State Patrol through Section 24-34-802 (1) (c), CRS, and requires we provide information that meets accessibility requirements specified by the Web Content Accessibility Guidelines per OIT's accessibility technical standards. There is no exception for rulemaking engaged solely to repeal existing rules that will be rendered ineffective or moot by statutory expiration.

The General Assembly has declared that the legal, accurate, and efficient administrative rulemaking practices of agencies should be consistent with the letter, intent, and spirit of the Colorado Administrative Procedures Act. The General Assembly has further expressed that rulemaking agencies must monitor and manage the rules they promulgate. This responsibility includes the proactive repeal of rules that are no longer applicable or statutorily supported. The General Assembly has found that responsible management of rules by administrative rulemaking agencies is to the benefit of public peace, health, and safety and helps eliminate confusion and administrative burden upon other governmental agencies. The Colorado State Patrol Catalytic Converter Identification and Theft Prevention (CCITP) Grant Program Rules must be repealed for these reasons.

Colorado Automobile Theft Prevention Authority (CATPA) Unit:  
Catalytic Converter Identification and Theft Prevention Grant Program  
8 CCR 1507-59**

**Statement of Basis, Statutory Authority, and Purpose**

Effective July 1, 2025, and consistent with Section 24-33.5-230 (6), CRS, the Catalytic Converter Identification and Theft Prevention Grant Program will be repealed. Under Section 24-33.5-230 (2), CRS, the Colorado State Patrol adopted rules to administer this program, but it does not contain a clause to repeal rules adopted upon the expiration of the statute automatically. Consistent with best practices, the Colorado Automobile Theft Prevention Authority Unit of the Colorado State Patrol seeks to repeal the Catalytic Converter Identification and Theft Prevention (CCITP) Grant Program Rules before the Patrol's authority to manage these rules under 8 CCR 1507-59 is revoked.

Document formatting adjustments not affecting content have been made throughout the document to comply with the state accessibility standards applicable under Section 24-34-802, CRS, and adopted under 8 CCR 1501-11. 8 CCR 1501-11 applies to the Colorado State Patrol through Section 24-34-802 (1) (c), CRS, and requires we provide information that meets accessibility requirements specified by the Web Content Accessibility Guidelines per OIT's accessibility technical standards. There is no exception for rulemaking engaged solely to repeal existing rules that will be rendered ineffective or moot by statutory expiration.

The General Assembly has declared that the legal, accurate, and efficient administrative rulemaking practices of agencies should be consistent with the letter, intent, and spirit of the Colorado Administrative Procedures Act. The General Assembly has further expressed that rulemaking agencies must monitor and manage the rules they promulgate. This responsibility includes the proactive repeal of rules that are no longer applicable or statutorily supported. The General Assembly has found that responsible management of rules by administrative rulemaking agencies is to the benefit of public peace, health, and safety and helps eliminate confusion and administrative burden upon other governmental agencies. The Colorado State Patrol Catalytic Converter Identification and Theft Prevention (CCITP) Grant Program Rules must be repealed for these reasons.

There is no exception for rulemaking engaged solely to repeal existing rules that will be rendered ineffective or moot by statutory expiration.

Changes to these rules to comply with the accessibility standards include changing capitalized text to mixed-case or lower-case text, removing underlined text, increasing font size, enabling hyperlinked text associated with website addresses, and adjustments to the physical paragraph structure of the document to more effectively support bookmarking for electronic reading software.
