Subjects and issues involved

The amendments proposed to the CSP HM Routing Rules include:
Updates to and renumbering of the designated East-West hazardous materials routes, HMR 4.13.2.18 through HMR 4.13.2.34. Updates to HMR 4.13.2.18 and 4.13.2.20 are specifically in response to the recent approval of the Delta County petition to decommission one hazardous materials route (Main Street) through Delta, and to clarify the parameters of the remaining Delta County route (Confluence Drive). Existing, remaining East-West routing information previously listed in HMR 4.13.2.20 and after has been reassigned to HMR 4.13.2.21 and after, through new subsection HMR 4.13.2.34.
Correction of the name of the Colorado Department of Transportation Section responsible for issuing annual hazardous and nuclear transportation trip permits and for receiving payments related thereto.
Updates to the publication dates for the Code of Federal Regulations, and Commercial Vehicle Safety Alliance documents cited within these rules; and
Correction of website addresses, capitalization of words, and updating the effective date of these rules.
