Sun, Dec 14, 2025 at 6:17 PM

The CDOT Freight team will need to take action once these regulations are approved. We will updated the hazardous materials route map to show the removal of Hwy 50 (Main St), which is a state owned roadway, and the addition of Confluence Dr to the statewide hazardous materials route map. We will need to make sure that our website is updated to highlight these changes as well.
